

## **Sankarshan Murthy '06**

Co-Founder and CEO,  
Bumblebee Spaces

### **Educational Background**

BSME, BMS College of Engineering,  
India

MSME, University of Maryland,  
Baltimore County

MS in Technology Management,  
University of Pennsylvania

### **Work Experience**

Product Technologist, Tesla Inc.

Technical Product Management,  
Apple, Inc.

Project Engineer and Innovations Team  
Lead, Stanley Black and Decker, Inc.

Presents

## **THE RAYMOND V. HAYSBERT, SR. ENTREPRENEURSHIP LECTURE SERIES**

# **Creating A Technology Business in a Traditional World**

A vast majority of the technologies that we interact with on a daily basis are actually fairly old, and yet, we are oblivious to the deep impact they have on our lives. Homes are probably the least technologically evolved product that we use everyday. We spend a vast majority of our time, resources, and money on homes. With continued urbanization, we will be doubling the number of houses on the planet in the next 40 years. The amount of Carbon footprint that this could add is the problem of our generation.

As a founder, Sankarshan took on the mission of using the advances in product development and technology to make homes efficient. Bumblebee uses advanced robotics and AI to productize "space", creating an opportunity to make homes radically more efficient, smart and sustainable. In the talk, he will talk about his entrepreneurial journey and focus on the mission. He will share some of the common themes that have helped him develop a sense of looking around the corner when it comes to building products and markets.

**October 21, 2020  
Noon - 1 p.m.  
To Be Held Virtually**

The Raymond V. Haysbert, Sr. Entrepreneurship Lecture Series provides a platform for successful entrepreneurs to candidly share their experiences and insights with UMBC students, faculty, alumni and the Baltimore business community. The series highlights experiences, lessons learned and unique issues and challenges faced by entrepreneurs in the creation of a new enterprise.
