ADDING VALUE WITH AI IN A STARTUP

JERROLD JACKSON, PHD

OCTOBER 6, 12-1PM
HELD VIRTUALLY

Many organizations aspire to incorporate AI into their tech stack and capabilities, but very few are poised to see either short-term value or long-term value from AI. In this talk, Kevin will give real live examples of when and how it's best to implement AI in your organization, along with tangible ways to evaluate success.
